

Directions: This is your timeline **ROUGH DRAFT**. Read the section in your book that corresponds to your assigned Latin American country. Choose 5 events between 1945- 2000. Fill out the following chart with **FIVE** historical events about your country.

| <i>Event</i> | <i>Year</i> | <i>Explanation</i> |
|--------------|-------------|--------------------|
| 1.           |             | -<br>-             |
| 2.           |             | -<br>-             |
| 3.           |             | -<br>-             |
| 4.           |             | -<br>-             |
| 5.           |             | -<br>-             |

**Finished Copy:** Label the years on your timeline so they correspond to your country. For example, if you have 3 events that take place between 1950-1955, you can label your map so that the 1950s take up more space. Don't forget to include TWO current events from your research. Next, include a 2-3 sentence description of each of your 5 selections on your timeline. You should have SEVEN TOTAL events on your timeline (5 historical and 2 current).
